***NLP Applications for
Human Resources
Practitioners***

Neuro-linguistic Programming (NLP) is a field of study that combines and integrates the thinking of a variety of fields ranging from Cognitive and Behavioral Psychology to Linguistics and Cybernetic theory. This field offers practical applications for HR professionals. However, it is an area which is seldom reviewed within the field of HR management.

In this presentation, NLP's key concepts will be introduced. An overview of NLP's relevance in aiding HR professionals to become more influential communicators and help others facilitate change will be reviewed.

We look forward to seeing you for this dynamic presentation!
